

Md. Foysal Ahmed

Career Objective

Last few years I have spent most of my time learning Algorithm, Data structure and doing competitive programming and few months I have spent most of my learning Javascript Framework and Library. Now I want to use my whole skill to do something real. That's why I am seeking a job that will allow me to gain experience and measure my performance. I believe I am a fast learner

Education

2018-2022

Eastern University

Bachelor of Computer Science & Engineering

CGPA 3.45 out of 4.0

2012-2016

Bangladesh Institute of Technology

Diploma in Electrical Technology

CGPA 2.91 out of 4.0

Skills & Activities

I have Knowledge about C, C++, python, javascript.

Mainly I have solved most of the problems using C/C++ and few solved problems using python for practice also. Recent 1 years later I participated different cyber-security CTF competition online and onsite for my personal interest and I am solving problems from recent 4 years in following site & several online judge.

I have participated in -

EU Inter University Programming Contest 2019

EU Inter University Programming Contest 2020

2020 MIST NCPC

Defcon29 Red Team CTF 2021

nahamcon21

Professional Skills

Last 4 Years I solved around 700 programming problems using C / C++ and I also learned web-app penetration testing a little bit hence sometimes taking part Bug bounty hunting in free time. That's why I have little bit pretty knowledge about vulnerability like XSS, SQL, HTML injection, LFI, RFI, RCE and subdomain takeover. Now I have tried to learn ReactJS, NodeJS and few other things. I am not an expert but still learning.

Hobby and Interest

Problem solving, Cryptography, Penetration testing, Bug Bounty and Reverse Engineering.
